CHETEGENABLE AVE. D'MORSE'S INVICORATING CORDIAL

TOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOOTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medicine, for Lots of Muscular Energy, Physical Lastitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the knost valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DIBEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, rensw the health of those who have destroyed it by Sensual Exosses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORRE'S INVIGORATING CORDIAL has cured, and is coustantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as

mental and somy incepactly of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall over recommend it, whenever an opportunity occurs."

acure I am sure no other medicine would. I shall over recommend it, whenever an opportunity occurs."

The nature of the maiadies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous yirtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS

have not, in a single instance that has been authonicated, given their sanction to any other preparation for the above complaints. It has, in many violent and deeperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

EVER COMMON EVERESSION

effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsaparillas,) without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will oure me."

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I procured some of your Cordial. I must say it completely

saved me so much expense, onese's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not burt the most delicate female, but de good. Beware of all other Cordials, &c., and try only this. It is put up in pint bottles, with the words Dr. MÖREE'S INVIGORATING CORDIAL blown on the glass. Price 33 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per terms.

DR. JOHNSTON PROCLAIMS TO THE AFFLICTED
That he has discovered the most certain, speedy an
cious plan of treating
SECRET DISEASES

that has ever yet been presented to the world. By his plan founded on observation made in the Hospitals of Europe and America, he will insure A CURE IN TWO DAYS.

ACURE IN TWO DAYS,

OR NO CHARGE.

No Mercury or Nauseous Drugs used.

Weakness, Loss of Organic Powers, Pains in the Loins,
Disease of the Kidneys, Affections of the Head, Throat, Nose
and Skin, Constitutional Debility, and all those horris affections arising from a Certain Secret Habit of Youth, that solitary practice, more fixtal to its victims than the song of the
Syrens to the mariners of Ulysses—hlighting their most
brilliant hopes or anticipations, rendering Marriage, etc.,
impossible.

A CURE WARRANTED, OR NO CHARGE. Young Men especially, who have become the victims of bilitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thourands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Sonates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full considence.

MARRIAGE.

may call with full confidence.

MARRIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr.

J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary abit, which ruin both body and mind, unfitting them for

habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Jimbs, Pains in the Head, Dimness of Sight, Loss of Musoular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice se fatal to the healthful existence of mah, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsis, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR OR-

DR. JOHNSTON'S INVIGORATING REMEDY FOR OR-GANIC WEAKNESS. GANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

tion! Such persons, before contemplating MARRIAGE, MARRIAGE, should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pilgrimage; the prospect heurly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

To STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guara ity that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

TAKE NOTICE. It is with the greatest rejuctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fall to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pedlars, leading the professional for a physician to advertising the professional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fall to fall into the hands of those imprudent, boasting impostors—individuals are for injects than ten minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects that the minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects that the minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects than ten minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects than ten minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects than the minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects than the minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects than the minutes after taking RADWAY'S READY RELIEF, The patient experiences its Delightful Emotions of Health-boards are for injects than the minutes after taking and the patient experiences its Delightful Emotions of the patient sidans; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone one cure you. To those unacquainted with his reputation the deems it necessary to say, that his ordentials or diplomas always hang in his Office.

AS A SAFE AND SPEEDY CURE EFFECTED, OR NO MONEY REQUIRED.

Over twenty years' experience in the treatment of all forms of PRIVATE DISEASES enables Dn. Harns to insure a sound and speedy cure in any of these complaints. His remedies are free from disjusting oils, balsum, poisonous compounds of mercury, and injurious drugs, which so often lead to exposure, rendering the unhappy sufferer an invalid for life. THIS INFIRMARY,

celebrated throughout the Union for the effectual cure of all classes of Secret Diseases in the shortest time ever accomplished by proper and safe remotics, was established in this city over thirteen years ago, as a Repton from Quackery. No public notice of this Institution would be required, were it not for the number of strangers in a large city exposed to Isrosirion from the alluring baits of Mock Dectors, who will promise anything to entice strangers to their warren supplications.

ENFEEBLED MANHOOD may here find a certain restorative. The remedies of Dr. Harris in renovating the MENTAL AND PRINCAL POWERS, and removing all officence and the moving all officence are innocent in action, certain in effect, and unsurpassed by any discovery of the age.

AMERICAN TELEGRAPH. OUR PUBLIC SCHOOLS .- No. IV.

BY S. S. BANDALL

A very powerful illustration of the intimate connexion which subsists between Education and the well-being both of individuals and communities — between ignorance, wretchedness, and crime—may be found in the written as well as unwritten annals of the prisons, penitentiaries, and almshouses of our own country and of Eu-

The whole number of convictions for crime in the State of New York for a period of nine years, from 1840 to 1848, both inclusive, as returned by the sheriffs of the several counties to the office of the Secretary of State, in accordance with law, was 27,949. Of the persons so convicted, 1,182 are returned as having received a "common education;" 414 only as "tolerably well educated;" and 128 only, or one in every 219, as "well educated." Of the remaining 26,225, about half could barely read and write; the residue appear to have been wholly destitute of even the elementary principles of learning. These are the results even of the present imperfect, and, in many respects, seriously defective system of ed-ucation which has hitherto prevailed in that

During a period of eleven years, from 1836 to 1847, the annual average of accusations for crime in all the counties of England and Wales from which returns were received was 25,412; of which 106 only were preferred against per-sons educated in any degree beyond the mere ability to read and write. The proportion of accusations to the entire male population was one in 370, while the proportion of such accusations against those educated beyond reading and writing was only one 76,227! The proportion of accusations to the entire female population was one in 1,680; while the proportion against those edounties, comprising an aggregate population of fault. 11,183,718, furnished but forty-five convicts edu-cated beyond the mere ability to read and write; and thirty other counties, comprising an aggregate population of 4,728,039, furnished not a sin The returns of 1846 gives similar results. In fifteen English counties no person educated beyond reading and writing was convicted in either year. In the county of Middlesex, in-cluding the city of London, but three educated persons were convicted of crime in 1845, and one only in 1846! The whole number of charges against boys under fifteen years of age was 3,189; of whom not a single one had been edu-

cated beyond mere reading and writing. from the Journal of the London Statistical Society; and their accuracy is vouched for by the

most reliable English authority.

An examination of the statistics of mendicity and pauperism will likewise show that of the vast number of hapless individuals, supported at an enormous cost from the public funds, the number who have received even the most ordinary education is very small. And yet the aggregate annual cost of supporting this class of persons in the State of New York alone exceeds \$800,000, or the whole amount raised by tax for the main-

tenance of eleven thousand public schools!

If we deduct from the whole number of couvicts and of paupers annually immured in our prisons, penitentiaries, and almshouses, the imnense aggregate of ignorant and uneducated ersons, and with it the cost attendant upon their arrest, conviction, and support, we shall be enabled to form some conception of the tremendous the root of the monster evil: take every child while his nature is yet pure and unperverted; store his mind with knowledge, and train his af-fection and his heart, his whole moral nature to annually expended in the detection and punishment of crime, and in the support of the criminal, the mendicant, and the pauper may be diverted to other and far more productive and fertilizing channels. The wildernesses and solitary places of human guilt and misery may be made o blossom like the rose : and the energies and faculties of thousands of immortal minds be diverted from a career of ignominy and vice to one of honor, usefulness, and happiness.

The Washington Union s discoursing very eloquently on Gen. Scott's hostility to foreigners: but it nowhere appears that he dislikes them half as much as the New Hampshire Democracywho will not permit them to vote or hold office-

privileges which they extend to negroes.

Nautical Maxims.

Capt. Swosser was Mrs. Bayham Badger's first husband. Mr. Badger was her third. Captain Swosser had a peculiar fondness for figures of speech drawn from the naval profession; and some of them were strikingly graphic. Thus, in the last number of "Bleak House," Mrs. Badger spirit is thoroughly aroused, and we look with records one of his sayings:

"Capt. Swosser used to say of me that I was dways better than land a-head and a breeze astarn to the midshipmen's mess when the purser's junk had become as tough as the fore-topsel leather earings. It was his naval way of mentioning generally that I was an acquisition to any society.

This is highly picturesque, but perhaps not more so than the following maxim, which may, perhaps, have even a wider application than either Capt. Swosser or Mrs. Badger would give

"It was a maxim of Capt. Swosser's' said Mrs. Badger, 'speaking in his figurative naval the army and navy of the United States, an apmanner, that when you make pitch hot, you cannot make it too hot; and that if you only been inserted by the Senate in the civil approhave to swab a plank, you should swab it as if Davy Jones were after you. It appears to me that this maxim is applicable to the medical as well as to the nautical profession.'

". To all professions,' observed Mr. Badger it was admirably said by Capt. Swosser. Beau tifully said.""

Miss M. J. Windle. The Winchester Virginian says:

"We observe, in some graphic sketches re-cently written to the National Intelligencer from Jordan Springs, by a lady not constantly accustomed to Southern life, sketches of the happy and satisfied condition of our slaves as she now ob serves it. This array of simple facts is the best offset to such absurd fictions as 'Uncle Tom's Cabin.

"The author of these sketches is Miss M. J. Windle. The same paper of a late date also contained

the following notice:

"Scenes" in the U. S. House of Representatives.

It is with pleasure we observe that these affairs are much disrelished by the press of the country. The New York Sun-sometimes a pretty rampant journal-bears with a heavy hand upon such discreditable spectacles. Respecting the

incidents of Tuesday last it says: Colonel Polk is yet a young man, and has many amiable qualities, intermingled with some few follies, which, in a man of his personal appearance and political position, are magnified, till they are taken by many as forming the whole of his character. Hence he is liable to be censured unsparingly if not with respectively be there who unsparingly, if not with vengeance, by those who are politically opposed to him. We have no sympathy with any such want of feeling towards Col. Polk; but we are not the less ready to avow that he has disgraced himself and his country to such an extent that he should at once resign his seat in the House of Representatives. A man's faults when condemned by himself are half atoned for; but there is no sufficient atonement in Col. Polk's case, except by the course we have suggested. He owes it to his country to leave at once his seat, and to immediately resign the trust

imposed in him, as an evidence of his repentance for flagrant outrage. Should he take this step, we shall have hopes that, at a future day, he may be useful to his country, should the error of his youth and of his passions, which sadly need subduing, be erradicated by the bitter lesson of experience, and a strong will to live down the obloquy, which, for some time, much rest upon his name. The pen-ance which he may inflict on himself by resign-ing his place, will have a salutary effect on the conduct of members of Congress in future, and Col. Polk's precedent will be an admirable beacon for men of violent passions, for years to come-for we have no doubt that the American people would be highly gratified to believe and in 1.680; while the proportion against those educated beyond reading and writing was but one in upward of two millions! In 1845, twenty-two the inevitable consequence and atonement for the

A call is everywhere made for Mr. Polk's speech, abusing General Scott, delivered in the House of Representatives on Tuesday. It is hoped that a full and accurate report of it was made. The Whigs expect that its free circulation will add ten thousand votes to Gen. Scott's strength.—Alex. Gazette.

For a copy of it and Hon. Mr. Faulkner's, of recent date, a liberal price will be paid at this office. Good, literal reports are required.

What American is there, who will not cry, hame, shame, when he reads the proceedings in These statistics have been carefully compiled the House of Representatives, as detailed in the rom the Journal of the London Statistical Socie-Can no considerations of decency, honor, or propriety, put a stop to such "scenes " Must the House of Representatives be considered as past hope, and beyond redemption? Is it said, that the House is not responsible for the conduct of a few disorderly members? We reply that it is. The House has the power to punish for such conduct. If an example were made, boldly and fearlessly, these things would be ended. then, we can look for no change for the better .-Alex. Gaz.

Whig Meeting in Florida.

The delegation appointed by the "Scott and Graham" and "Cerro Gordo" Clubs of this city, to attend the Whig meetings in Florida, near the coast, returned to our city yesterday in the finest spirits. The first meeting they attended was at burden which has hitherto pressed like a terrible Milton, where a fine barbecue was given, and incubus upon the energies of society. Strike at where a large and enthusiastic assemblage convened. The exercises were opened by a chaste and beautiful eulogium upon the life and services of Mr. Clay, by the Rev. Mr. Capers. After virtue; develop and direct his developing facul- this, a political discussion was had, conducted on ties with judgment, with discretion, and with the part of the Whigs by Col. Ward and Col. J. love; cultivate thoroughly and wisely his entire J. Finley, the first the Gubernatorial candidate, being, and the uncounted millions which are now and the last a candidate for Elector. The speeches were exceedingly appropriate and logical, and were very effective upon the auditory. Two Democratic orators attempted to respond to them, but the hearty cheers which resounded for Scott and Graham at the conclusion of the discussion, told how "lame and impotent" were their efforts. Col Breedin, of Mobile, was then called out, and

made one of his happiest political speeches. The barbecue at Pensacola, which came off on Tuesday, was said to surpass anything of the kind that has ever before been attempted in West Florida. People crowded in from all quarters at an early hour, and the ladies (God bless them!) were there by hundreds, and good listeners they

Throughout the long day the multitude listened attentively to the arguments of Col. Breeden and Mr. Moulton.

On Wednesday evening there was a glorious rally at the Navy Yard. The first address of the evening was delivered by Col. Finley, and was most happily adapted to the auditory and the occasion, who was succeeded by Col. Rapier, who

did himself great credit. The result of these three days has given an impetus to the Whig cause in Florida. The true strong confidence for the success of the Whig candidates there at the coming election. There are other matters connected with our trip to Pensacola which we must reserve for a more con-

venient occasion. - [Mobile Register, Aug. 20. Asylum for the Insane in the District of Columbia.

The Intelligencer of this morning says:

"To enable the Secretary of the Interior, under the direction of the President of the United States, to purchase a site containing not less than ten nor more than fifteen acres of land, in the neighborhood of Washington, and for the erection, furnishing, and fitting up an Asylum for the Insane of the District of Columbia and of priation bill, without a dissenting voice, we believe-an act most honorable to the humanity and liberality of that elevated body."

THE FIRE ANNIHILATOR.—The experiment last evening by Dr. Colton, to test the efficiency of the Fire Annihilator, was perfectly successful. The flames issued many feet out of and above the upper windows of the building, and were extinguished on application of the gas almost instantaneously. After being extinguished thus, a fire was relighted in the northwest corner of the building, upon the fire engine having played, it was put out almost as soon as by the annihilator. The action of the annihilator was deemed perfectly successful and satisfactory, but for the completeness of the trial by both m have been better if the building had been drier and more combustible. Several thousand per-sons were collected to witness the experiment.

The Bangor Whig tells of a remarkable crop of wheat grown in that State, and averaging one hundred bushels to the acre. The seed was sown in one town, and the crop reaped in another— the farm in the interim having been set off from the town of Brewer and added to Holden.
